

Celebrating 50 Years of Service... Or more?

The whole team at The Physiotherapy Centre

The Physiotherapy Centre has been a vital part of Warwick's health and wellbeing for over 50 years... How much longer than 50 years is a very good question - we are not entirely sure!

“Just how much over 50 years is the question...”

We wanted to take this opportunity to reflect on our journey, and to honour those who built the foundations of the business we know today. However, we are missing parts of the early history and would be thrilled if someone could fill in the blanks. As far as we can tell, June Jones (wife of local GP Arnold Jones) first purchased the physio clinic in the 1970's. We're not sure exactly who June Jones purchased the business off, but we think it was a relative of the Macintosh's. It appears that the business had been operating for about 15 years prior to June taking over.

In 1986, at age 32, Lois James purchased the business and continued to build on the legacy created by June. Lois changed the name of the business to "Warwick Physiotherapy Centre" and for 23 years established the practice as the leading provider of physiotherapy care in Warwick. During this phase, Lois shifted the business to 55 Guy street.

The team at The Physiotherapy Centre are passionate about meeting the needs of the community and strongly believe that rural communities should have access to exceptional healthcare services. The team takes pride in their culture and work ethos; promoting kindness, respect, passion and growth. This flows over into every aspect of patient care, ensuring every client not only receives the highest level of care, but also feels valued and respected.

If anyone knows the history prior to the 1970's, we'd love to hear from you! Please contact us at admin@thephysiocentre.com.au or call our clinic on 4661 5577.
